Terms of Reference for

Third Party Monitoring of Provincial and Local Governance Support Programme (PLGSP)

1. Background Information

The Provincial and Local Governance Support Programme (PLGSP) is a national flagship program of the Government of Nepal (GoN) aimed to build institutional, organizational and individual capacity at all levels of government, with special focus on the provincial and local levels. The ultimate goal of the Programme is to attain functional, sustainable, inclusive, and accountable provincial and local governance. The Programme aims to contribute to the delivery of quality services at provincial and local levels, promote local development, and enhance economic prosperity. The Programme intends to achieve the overarching goal through the three outcome areas namely:

- I. Outcome 1: Government institutions and inter-governmental mechanisms at all levels are fully functioning in support of the federal governance as per the Constitution.
- II. Outcome 2: Provincial and local governments have efficient, effective, inclusive, and Accountable institutions.
- III. Outcome 3: Elected representatives and civil servants at provincial and local governments have the capacity and serve citizens to their satisfaction.

The PLGSP is in its second year of implementation. Even though the key foundational milestones were achieved and the PLGSP was ready to kick start with its full implementation, the COVID-19 pandemic, and the subsequent nationwide lockdown significantly affected its implementation.

As part of this framework and of the key requirements from the PLGSP Joint Financial Agreement signed between the development partners and the Government of Nepal, is to conduct a third-party monitoring exercise after the National Executive Committee (NEC) meeting in November 2020. The report of the third-party monitoring will have to be presented to the next NEC meeting scheduled for May 2021. Thus, the findings of the third-party monitoring will serve to capitalize of the main achievements of the Programme as well as to reflect on the related challenges and risks.
